DETAILED ACTION

Allowable Subject Matter

Claims 21-29 and 34 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 21, 27, and 34, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a scan type exposure apparatus and device manufacturing method, in combination with the rest of the limitations of the above claims.

With further regard to the above claims, the applicants' arguments dated July 9, 2004 lay out detailed reasons for the allowability of the claims in view of the prior art. In particular, the prior art, while disclosing most of the claimed apparatus, fails to disclose a controller selecting yaw measurement information of the X measuring device for an alignment operation and yaw measurement information of the Y measuring device for scan exposure, in combination with the rest of the elements, method steps, and limitations of the corresponding claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420. The examiner can normally be reached on Monday through Friday.
